**CHARGING INSTRUCTIONS**

Vibrating bullet arrives charged. You do not need to charge it before using.

Connect the USB plug into the USB port of your computer or other output and the other end of the DC charger into toy's input. The toy operates at 3.7 volts and uses a lithium polymer battery.

Initial and subsequent charges take about 3 hours to complete.

The light will flash while device is charging, and remain solid when toy is fully charged. There is no danger of battery damage by overcharging. Charge lasts for about 50 minutes of play time.

This toy operates at a 50 dB sound level.

Toy vibration stops completely when battery level diminishes.
